

SAM Electronic Lockers

Smart Storage

Electronically controlled lockers may be modified in a wide variety of ways to accommodate the needs of your facility.

Firearms, medical equipment, shop tools, expensive electronics, etc. – our locker solutions are in place around the world controlling access to a range of assets in a vast array of shapes and sizes. Locker access is controlled by GFMS™ Software allowing these cabinets to integrate with our wide family of SAM products. Available features include AC power charging of stored assets and USB identification. Available locker configurations:

Electronic Locker Details
