

# Medeco® XT

## Rim and Mortise Cylinders

The Medeco XT Rim and Mortise electronic cylinders are a simple and direct replacement for mechanical Rim and Mortise cylinders. Ideal for loss & liability management with flexible authorization and auditing capabilities.

Respond quickly to security threats, lost or stolen keys, or personnel changes without the added cost of changing your locks and keys. Medeco XT is a complete electronic locking system providing controlled access, accountability, physical security, and system management with no wiring requirements.

Cylinders are available in many popular lengths to fit nearly any application in your office, business and retail applications.

Mortise Cylinder

Rim Cylinder

### Medeco XT Mortise Cylinders

Description	Part Number	Price

1 3/8" Mortise Cylinder	105100 G	

### Medeco XT Rim Cylinders

Description	Part Number	Price
Rim Cylinder, horizontal tailpiece	100400H G	
Rim Cylinder, vertical tailpiece	100400V G	

## Medeco® XT Dual-Tech Cylinder

### For Rapid-Entry Applications

The patent-pending Medeco XT Dual-Tech retrofit cylinder is designed for both accountability and rapid-entry applications. It combines two cylinder technologies – the Medeco XT electronic cylinder and the Medeco X4 mechanical cylinder – in one mortise cylinder housing. Both cylinders operate independently of one another so access is provided using either the XT Key or the X4 key.

Allows fire department emergency facility access using a familiar mechanical key while the XT Intelligent key is used for daily accountability. In multi-family applications, tenants use the mechanical key and maintenance uses XT key for accountability. Ideal for any application requiring a mechanical key override.

### Medeco Dual Tech Cylinder

Description	Part Number	Price
Medeco XT Dual Tech Cylinder, with Medeco X4	490423 G	
Medeco XT Dual Tech Cylinder for Arrow/Best	490426 G	

## Medeco® XT Dual-Tech Cams

Dual Tech cylinders come complete with a set of 2 specially designed cams, a direct-drive cam operated by the Medeco XT key and an Override cam operated by the Mechanical key. Cam type must be indicated when ordering (Z00, Z01, etc.)

**Important Note:** The standard cams listed on pages 66-67 cannot be used in Dual-tech cylinders.

Replacement cams must be ordered using the chart below. One each direct drive and override cam required per cylinder.
